7. Our Growing Industry

USANA is more than just an incredible company—we're an incredible company in one of the fastest growing industries in the world. Direct sales play a major role in the global economy, and health and wellness products make up a good chunk of the industry's annual sales. So go ahead and start visualizing the opportunities.

8. Worldwide Credibility

We're kind of a big deal. People know us. As a member of the [Direct Selling Association](#), we're committed to excellence. And the USANA family includes extraordinary people of all ages, genders, and backgrounds, including best-selling authors, Hollywood celebrities, scientific experts, leading health experts, experienced business professionals, and more than 700 world-class athletes. That's a lot of clout.

9. Affordable Start-Up Costs

We like to keep things simple. The only required purchase to start a USANA business is our Business Development System, which has everything you need to get started. So who needs to invest thousands of dollars in a business opportunity just to make a penny? You can get a tried and true system to create the life you want for as little as \$30 US. That's probably less than the cost of your monthly utility bills.

10. Experience You Can Count On

USANA has been around for a while—more than 30 years, to be exact. That's a huge milestone, but it's also a sign. A sign we have what it takes to last. A sign our products and business model are built to last. A sign we're on the cutting edge, leading the industry. And that's right where we plan on staying.
